Background:

NEM is a non-profit trade association representing both leading suppliers and major consumers of natural gas and electricity as well as energy-related products, services, information and advanced technologies throughout the United States, Canada and the European Union. NEM's membership includes independent power producers, suppliers of distributed generation, energy brokers, power traders, global commodity exchanges and clearing solutions, demand side and load management firms, direct marketing organizations, billing, back office, customer service and related information technology providers. NEM members also include inventors, patent holders, systems integrators, and developers of advanced metering, sub metering, demand response, solar, fuel cell, micro generation, next-generation lighting, heat reduction, magnetic resonance and related smart grid, grid security, as well as automated home and business products and service companies and power line technologies.

Membership
